

Custom Training Programs – Law Enforcement and Military Programs

Aggressive Defensive Solutions is a training centric organization. We have brought together instructors and operators with backgrounds from each of the disciplines we teach.

AggDefSol is uniquely positioned to create custom coursework for our customers. We recognize the dynamic nature of today's threats and understand that one size fits all training is not always your best value for your limited budget or training time.

If you have a unique requirement and our current course work does not appear to fill your needs just call us and see what AggDefSol can do for your organization. We have modified our courses and provided our customers situational based training from law enforcement scenarios to combat operations such as convoy operations and MOUT training. Our training has gone as far as providing Observer Controllers and role players for LE and military exercises.

AGGRESSIVE DEFENSIVE SOLUTIONS is here to help you with all your training needs.

Why Aggressive Defensive Solutions?

Simply stated, we have the answers to the real world problems. Our security consultants have law enforcement and military security backgrounds. They understand what works, what does not and why. These professionals work with us because they believe in what we are doing.

For the *Law Enforcement Professional*: AggDefSol has several Virginia DCJS General Instructors, Firearms Instructors, and Defensive Tactics Instructors. We provide a full range of training programs for departments of all size. Make you in-service training count.

For the *Military Professional*: all AggDefSol military training is taught by for military members. Each staff instructor is a veteran of ground combat to bring relevance to your training. Our courses are not about simply surviving - they teach you how to win on the battlefield.

For the *Corporate Security Professional*: AggDefSol understands the constrained nature of the business world and can provide considerable value to limited security funding in todays corporate setting. We have a unique mixture of instructor backgrounds which can cater to every aspect of corporate training from tactical and technical training to site security surveys and employee protection planning.
